

Easter Bunnies are for Easter

Rabbits are not toys for children. Every year thousands of rabbits bought for Easter die before their first birthday due to lack of proper care. They are harder to care for than a cat or dog. They need to live indoors in a large exercise pen, not outside in a cage or hutch. The life span of a rabbit can be up to twelve years or more. Before you get a rabbit please visit our site to learn all about rabbit care.

Real Bunnies are Not
