

Leo and Star

We need a forever home

Leo and Star are two of the sweetest cats you will ever know. They are brother and sister and were born in a foster home five years ago. Their mother was taken in from the streets and gave birth the next day.

When old enough they went to weekend adoption events and found what we thought was their forever home. Well, five years later they were not wanted and were returned to us, through no fault of their own.

They were very scared when they came here; they just sat in their litter box not wanting to move. But now they have settled in and are very friendly and love people. Leo likes to sit on your lap and will give you licks. Star loves to have head strokes and will purr forever.

We now need to find their true forever home and would like to find it soon so they can settle in before the holidays. If you have it in your heart to care for them for the rest of their life please let us know.

Only serious cat lovers apply at (909) 631-9552 please ask for Caroline
